Press release: news from Bastl Instruments: Kastle Kit, OMSynth MiniLab, bitRanger addons

We are happy to announce that we have finished several products before the end of the year.

First we finished documentation for the **Kastle DIY Kit** which is now available through noise.kitchen!

Second it is our great honor to offer the world excellent DIY product by **Pete Edwards a.k.a. Casperelectronics** called the **OMSynth MiniLab**. The OMSynth miniLab is a circuit development and performance interface designed to help inventors quickly build and experiment with creative circuits. It was designed with beginners in mind but is perfectly suited for seasoned builders and complex circuit development. The OMSynth offers all you need to start inventing circuits to make sound and light. Potentiometers, audio mixer, speaker headphone output, battery or adapter power and more. The OMSynth comes with tutorial videos for making analog oscillators, sequencers and a lo-fi digital sampler. Last but not least we have two new **add-on boards for the bitRanger**: Synapsis and the bitBoard. The Synapsis is a 4x4 push-button matrix that offers performative control of the bitRanger. The bitBoard is a breadboard add-on module that allows users to build custom circuits and user interfaces for the bitRanger.

bitRanger addons: <https://www.youtube.com/watch?v=ksHCK38hjRU>

Pricing and availability - all prices are excluding TAX

Kastle DIY Kit - 54 eur, when ordered before 12.12. Shipped before christmas

Store: <http://noise.kitchen/shop/bastl/kastle-kit/>

Kastle detailed demo video: <https://www.youtube.com/watch?v=k3b9iSbeoo>

OMSynth info: <http://casperelectronics.com/omsynth>

OMSynth MiniLab assembled (including OSC parts kit) - 90 eur

OMSynth MiniLab DIY KIT (including OSC parts kit) - 70 eur

OMSynth SuperLab Bundle (OMSynth assembled and all parts kits) - 135 eur

+ More products

all products available in small quantities before christmas when ordered before 12.12. ,

Store: <http://noise.kitchen/product-category/bastl/omsynth/>

bitRanger addons info: <http://www.bastl-instruments.com/instruments/bitranger/>

Synapsis - available in 3 colors (black, green, orange) - 25 eur

bitBoard - 10 eur

bitBoard Bundle (with 4 switches, 2 pots, 2 buttons) - 25 eur

available in small quantities before christmas when ordered before 12.12.
